

# 6 REASONS TO UPGRADE YOUR CORIOmaster® TO THE LATEST RELEASE

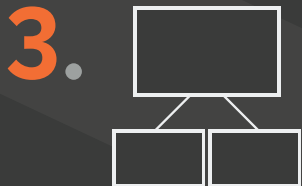

CORIOmaster continues to evolve with new feature additions including a new 4K60 output module and an update to CORIOgrapher set up and control software.

1. **4K60**

**Choose to output in 4K60** from CORIOmaster for a smoother video experience

2. **4K30 X2**

**Double the number of 4K30 outputs** available for truly expansive 4K installs

**More efficient output management** with output cloning using the new 4K60 output module

**Selected window presets** create window groups to build independent video walls on a single canvas

**Enhanced preset management** identifies and allows newly created windows into existing presets

**Optimized CORIOgrapher interface** for intuitive creation of display layouts
