# ADVANCED FEATURES

#### **Custom Resolutions**

A new LED engine that is fully integrated into CORIOgrapher allows installers to easily create and verify custom output resolutions using basic display information. From this basic setup, CORIOgrapher will guide you to the perfect setup and confirm if the desired resolution is valid. CORIOgrapher does the complex work making a very challenging task in to a very simple one.

(1920 )×(1080 ) (60 ) width height Hz								
Scan type: Pixel Clock: Total pixels Active pixels Front Porch (pixels) Sync Pulse (pixels) Back Porch (pixels) Polarity Frequency	Progressive 148.500000 2200 1920 88 44 148 Positive 67.500 KHz	CEA ID: Aspect:	16 16:9 1125 1080 4 5 36 Positive 60,000HZ					

### 8HD Player-Synchronized Playback

Using CORIOgrapher, easily setup the 4K Streaming & Media module to deliver synchronized playback groups using up to 8 x 1080P/30 stored files to create stunning video belts. The multiple file groups can be added to playlists for simplified point-of-sale and broadcast background displays to prevent your video wall from becoming invisible and enhance the viewer experience.

## **Product Compatibility**

CORIOgrapher is backwards compatible with CORIOmaster2 [G503 and earlier], CORIOmaster2 LITE, CORIOmaster and CORIOview systems. Save time and reduce setup complexity by only loading the application once on your PC to control any of these products. Additionally, the intuitive interface will appear with the exact workflow functions and feature list that are applicable to each product, making setup a breeze.

### **Third Party Custom Control**

Create custom control environments using our RESTful API or choose to take control using our app, plug-ins or button control panel.
